FOR IMMEDIATE RELEASE

## **PAYROLL SECURITY AND PERFORMANCE ENHANCEMENTS: ISUWELDO™ V3.5**

May 8, 2012 – iSuweldo™, a payroll solution developed by iSuweldo, Inc., announces iSuweldo™ v3.5; the third version released this year.

Security and confidentiality are some of the usual concerns when talking about payroll. In v3.5, additional security measures are put into the payroll processing, including the approval workflow to ensure that the authorized person approves the payroll before it goes to the bank. Performance enhancements are made to make the payroll run easier and faster and additional government forms have also been added for complete compliance.

iSuweldo's vision is to be the only payroll product in the country. The product is continuously being improved to provide the most efficient and most effective payroll for customers.

### **About iSuweldo, Inc.**

iSuweldo Inc. is a software company specializing in industrial strength Software-as-a-Service payroll products. iSuweldo, Inc. is committed to providing the superior value to companies of all types and sizes.
