FOR IMMEDIATE RELEASE

### **ISUWELDO™ v4.3: CONSOLIDATED TIMEKEEPING FEATURE**

December 18, 2013– iSuweldo™ upgrades to version 4.3 with the consolidated timekeeping feature.

Today, iSuweldo, Inc. announces the release of iSuweldo v4.3 that features a more solid timekeeping functionality. It brings to market a popular feature that significantly increases the power and ease of use of the system.

With iSuweldo's timekeeping feature, every company does not need to worry about combining time records from different sources such as biometrics, online bundy clock or E-bundy, and excel templates. Daily time in and out is consolidated in one area for easier checking. Employees will be able to view, update and submit timesheet for approval or for cancellation on real-time using iSuweldo's employee self-service (ESS). This gives the employees the opportunity to verify their timesheets prior to payroll, thus avoiding the hassles of payroll adjustments due to timesheet related complaints. The history of data is also maintained.

With iSuweldo HR and Payroll system, you don't need to look further as this is your one-stop-shop system. We aim to make your payroll easy, accurate and on-time.

#### **About iSuweldo, Inc.**
