

FOR IMMEDIATE RELEASE

iProcess for Restaurants now available

MAKATI CITY, March 10, 2016 - The iProcess team proudly announces its newest service offering, iProcess for Restaurants, a service tailor-made to address the specific and challenging needs of the restaurant industry.

For fast and accurate payroll processing, our iProcess team uses iSuweldo, the premier HR and payroll system. In addition to payroll computation, it offers other functionalities that are needed in the restaurant industry such as multiple location sources of timekeeping, multiple shifts, online leaves and other self-service functions, service charge allocations, and shift break allowance. On top of all these, it also automatically generates more than a hundred standard reports such as payslips and mandatory reports.

Our expert iProcess team can also run your company payroll per group, by branch or location for instance. Reports such as payroll registers and bank transmittals can be segregated per group as well.

Our iProcess service makes compliance with government agencies hassle-free. Mandatory reports required by different agencies such as the BIR, SSS, PhilHealth and Pag-IBIG are automatically generated and made readily available for filing. And every yearend, it can help you in doing your tax annualization, enabling you to complete this ever-challenging and tedious task faster and easier.
