

FOR IMMEDIATE RELEASE

ISUWELDO FOR MANUFACTURING

MAKATI CITY, March 28, 2016 – iSuweldo, Inc. proudly announces iSuweldo for Manufacturing. iSuweldo™ addresses the needs of manufacturing industry to be able to process the piece rate transaction as well as daily rate in payroll processing.

In the manufacturing industry, an employee or a worker may earn from their daily rate based on attendance, or from their piece rate based on the units they finish, or from both. iSuweldo's piece rate functionality or "pakyawan" feature where you can define various types of piece rate and the corresponding amount per piece. The employee or worker will then earn their wages based on the actual units they finished and the rate for specific piece rate type.

Other than monthly and bi-monthly payroll, iSuweldo™ can handle weekly payroll processing that is a normal practice for most manufacturing companies. With the use of standard templates, data such as units produced per day can easily be loaded into the iSuweldo system. Piece rate earnings can also be tied up with specific project and location that you can use for your project costing.

iSuweldo's standard reports such as payslip, payroll register, bank transmittal can be readily generated after processing the payroll. Government forms such as those for the BIR, SSS, Philhealth, and Pag Ibig are already computer based from the filled-out results of the payroll run to avoid errors such as incorrect encoding.

Using iSuweldo™ for manufacturing will greatly increase your companies efficiency and accuracy. Plus with the help of the standard reports from the iSuweldo system, you are on your way to a hassle-free payroll.
